

ZFM1080/ ZFM1300 Automatic Laminating Machine

Features:

1. Less temperature difference, high-speed operation, saving electric energy, and faster speed on the premise of ensuring the coating quality.
2. The water-based glue can be solidified quickly to achieve the purpose of high-speed film covering.
3. The roller surface is chrome plated and polished, with long service life and easy cleaning.
4. Equipped with pre-stacking mechanism to save downtime.
5. The front gauge and pull gauge ensure the straightness of paper feeding and film covering accuracy.
6. Servo motor control lap joint, centralized control of display screen for easy operation

Technical parameter

Model	ZFM1080SC	ZFM1080MC	ZFM1080LC	ZFM1300LC	ZFM1300XLC	ZFM1300XXLC
Max. sheet size(W*L)	1080*880mm	1080*1200mm	1080*1450mm	1300*1450mm	1300*1650mm	1300*1850mm
Min. stripping size(W*L)	320*260mm	320*260mm	350*320mm	350*320mm	320*400mm	400*450mm
Paper Thickness	80-500g/m ²	80-500g/m ²	80-500g/m ²	80-500g/m ²	80-500g/m ²	80-500g/m ²
Max. consumption power	73KW (AC380 V/3PH/50Hz)	74KW (AC380 V/3PH/50Hz)	75KW (AC380 V/3PH/50Hz)	88KW (AC380 V/3PH/50Hz)	89KW (AC380 V/3PH/50Hz)	89KW (AC380 V/3PH/50Hz)
Max. feeder height	1300mm	1300mm	1300mm	1300mm	1300mm	1300mm
Machine dimensions(L*W*H) mm	11000* 2900*3100 mm	12000*2900*3100 mm	13600* 2900*3100 mm	13600* 3100*3100 mm	14200*3100*3100 mm	15200* 3100*3100 mm
